

Requirement Analysis

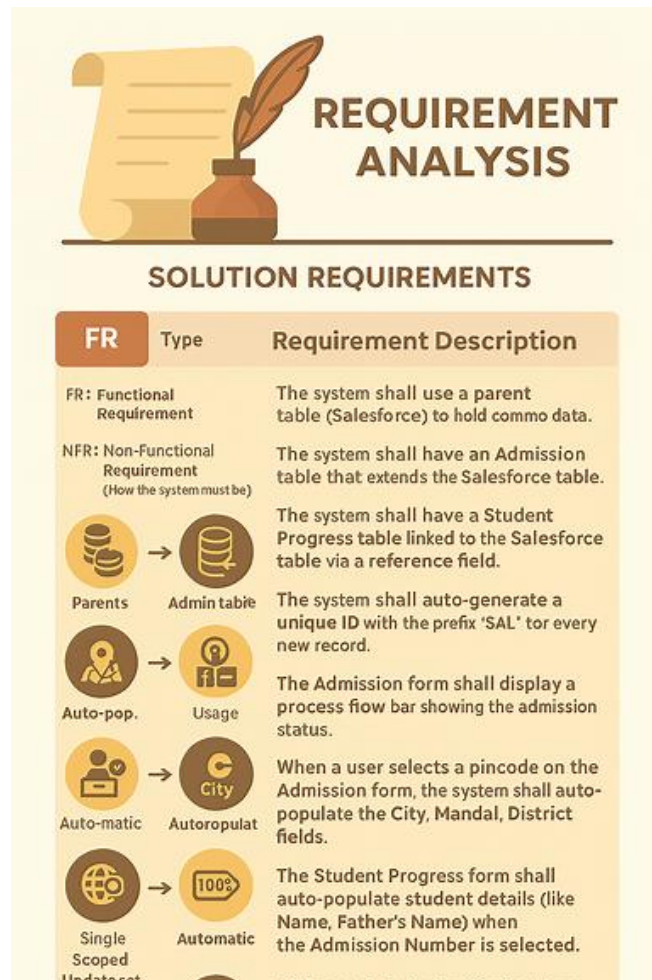

Solution Requirements

Date	November 2, 2025
Team ID	F53C03230D9D3649CD4402B24FF15FEB
project Name	Educational organization using ServiceNow

Project: Educational Management System Using ServiceNow

Requirement Types:

- **FR:** Functional Requirement (What the system *must do*)
- **NFR:** Non-Functional Requirement (How the system *must be*)

•

ID	Type	Requirement Description
FR-01	FR	The system shall use a parent table (Salesforce) to hold common data.
FR-02	FR	The system shall have an Admission table that <i>extends</i> the Salesforce table.
FR-03	FR	The system shall have a Student Progress table linked to the Salesforce table via a reference field.
FR-04	FR	The system shall auto-generate a unique ID with the prefix "SAL" for every new record.
FR-05	FR	The Admission form shall display a process flow bar showing the admission status.
FR-06	FR	When a user selects a pincode on the Admission form, the system shall auto-populate the City, Mandal, and District fields.
FR-07	FR	The Student Progress form shall auto-populate student details (like Name, Father's Name) when the Admission Number is selected.
FR-08	FR	The Total, Percentage, and Result fields on the Student Progress form shall be read-only.
FR-09	FR	The system shall automatically calculate the Total field by summing all subject mark fields.
FR-10	FR	The system shall automatically calculate the Percentage field based on the Total (e.g., $(\text{Total} / 600) * 100$).
FR-11	FR	The system shall automatically set the Result field to "Pass" (if Percentage ≥ 60) or "Fail" (if Percentage < 60).
NFR-01	NFR	All forms (Admission, Student Progress) must load in under 3 seconds.
NFR-02	NFR	Client script calculations (Total, Percentage) must execute in less than 1 second.

ID	Type	Requirement Description
NFR-03	NFR	The system must be built within a scoped application or a single global Update Set for easy migration.
NFR-04	NFR	Field names must be consistent and easy to understand (e.g., u_student_name).
